## MADE FOR YOUR MAC.

Finally there's a mouse that provides the natural human interface necessary to truly link free hand creativity with your Macintosh environment. From FX's to laptops, or any system with an ADB port, The MousePen Pro speeds you through your most sophisticated applications with a freedom and flexibility that will make your Mac feel brand new all over again.

## MADE FOR YOU.

Installation is easy. All you do is plug it in, no software drivers or adapters are needed.

The "Click" button has been centrally located for easy operation with either the left or right hand. We've even added a second button that allows you to change cursor velocity without a visit to the control panel.

The MousePen Pro...it's why you bought a Mac in the first place.

## IT'S A FREQUENT FLYER.

Need a mouse that won't drag you down? The MousePen Pro was designed to be the perfect traveling companion for your laptop. Small and lightweight, it slips easily into your laptop's case while you leap from cab to cab and plane to plane.

## AT WORK, ANYWHERE

The MousePen Pro can move your cursor full screen in an area smaller than an empty bag of airline peanuts. Tray table occupied by your computer? The MousePen Pro can be used on your pant leg, or even the back of the seat in front of you.

Denim, tweed or silk, on floors, walls or ceilings, The MousePen Pro loves new surfaces and angles. Its ultra low power draw and easy attachment makes it the perfect compliment for every laptop.

The MousePen Pro, your "all terrain" friend.

## THE COMPETITIVE EDGE.

Beating deadlines with a flick of the wrist, flying through Windows™ into one application after another, The MousePen Pro's familiar feel and superior control makes it the perfect instrument for any environment. From quicker selection of pull down menus to more precise operation of CAD or desktop publishing programs, The MousePen Pro out-performs the competition.

## PARTNERS WITH YOU.

The MousePen Pro's natural feel and light weight completes your largest tasks without dragging you down.

## NO WAITING

Just plug and go, The MousePen Pro is 100% compatible with all Microsoft serial and IBM PS/2 mice. Operated like a pencil or pen, you can take command immediately.

The MousePen Pro, new meaning to the phrase "Power Play".
