## 1. What is Nepali Indic Input 3?

Nepali Indic Input 3 provides a very convenient way of entering text in Nepali Language using the English QWERTY keyboard in any editing application (Office Application/WordPad /Notepad) that supports Text Services on Windows XP and above. Nepali Indic Input 3 tool will be packaged as a setup and running the setup will invoke the services. The tool supports all popular keyboard layouts.

### 1.1. System Requirements

Windows Vista  
Windows 7  
Windows 8

\*Tool is compatible with equivalent 64-bit Operating Systems mentioned above.

## 2. To Install Nepali Indic Input 3

Installation of the Nepali Indic Input 3 is a very easy process that takes less than two minute to complete.

Run or double click **Nepali Indic Input 3 Setup**. The setup wizard will guide you through the installation process. Once the installation process is complete, **Nepali Indic Input 3 has been successfully installed** will be displayed.

**Note:** On Windows Vista, Windows 7 and Windows 8, if your user login does not have administrative privileges or is not included in the user group of administrators right click the "Setup.exe" icon and select "Run as Administrator".

## 3. Supported Keyboards

Nepali Indic Input 3 supports various types of Keyboards. Click **Settings** Icon and select **Keyboard**. Choose keyboard layout of your choice form list of available keyboards.

### 3.1 Nepali Transliteration

User can type his message in Roman using the Standard English keyboard, which is transliterated on-the-fly to Nepali. It works on the logic of phonetics and is most effective when user write the word the way it is spoken.

## 4. Tool Setting Options

### 4.1 On-the-fly Help

Tool provides the simplest way to type text by using on-the-fly Help. As the user starts typing using transliteration keyboard, he can see the respective letters in selected Indian Language with various matra combinations.

To activate this feature select **On-the-Fly Help** from **Settings** Menu.

## 4.2 Show Keyboard

To view any keyboard (except Phonetic) select **Show Keyboard** option from **Settings** Menu.

## 4.3 Switch to English/Nepali

To switch to English Language, select **Switch to English** option from **Settings** Menu or use shortcut key Ctrl+Shift+T.

To switch to Punjabi Language again, select **Switch to Nepali** option from **Settings** Menu or use shortcut key Ctrl+Shift+T.

## 4.4 Help

To view help on Nepali Indic Input 3 tool, select **Help** from **Settings** Menu.

## 5. Troubleshooting

### 1. How can I make Language bar visible on my PC?

Right-click your Desktop taskbar, and point to **Toolbars**. See if **Language bar** is selected, if not click on it to select. If Language bar is no longer listed in the toolbar menu try below steps:

#### VISTA/WINDOWS 7

- A. Go to **Control Panel > Regional and Language Options > Keyboards and Languages (tab) > Change Keyboards > Language Bar**
- B. Select radio button **Floating on Desktop** or **Docked in the taskbar**.
- C. Click **OK**.

#### WINDOWS 8

- A. Go to **Control Panel > Language Options > Advanced settings**.

- B. Check the box for “Use the desktop language bar when it’s available” under **Switching input methods** section.

- C. Click on “**Change language bar hot keys**” link.
- Select radio button **Floating on Desktop** or **Docked in the taskbar**.
  - Click **OK**.

- D. Click on **Save** button.

## 2. How can I add Nepali Indic Input 3 on my Language bar?

### VISTA/WINDOWS 7

- A. Go to **Control Panel > Regional and Language Options > Keyboards and Languages (tab) > Change Keyboards > General**.
- B. Click **Add** button, Select the Language (Nepali) and under Keyboard section check the box titled **Nepali Indic Input 3**.
- C. Click **OK**.

3. I do not want Nepali Indic Input 3 as the default input method for my PC. What can be done?

### VISTA/WINDOWS 7

- A. Go to **Control Panel > Regional and Language Options > Keyboards and Languages (tab) > Change Keyboards > General**
- B. Check both:
  - ✓ You have not selected Nepali as your **Default Input Language**.
  - ✓ You have not selected Nepali Indic Input 3 as an input method in Language bar.

## 6. To Uninstall Nepali Indic Input 3

Follow the steps below to uninstall the tool:

1. Open Windows **Control Panel**→**Add/Remove Programs** to remove the program(s).
2. Select **Nepali Indic Input 3** and click **Remove** button.
3. You will be prompted by a confirmatory message. Select **Yes** to remove the tool completely.

**Note:** It is recommended to close all running applications before uninstalling the Nepali Indic Input 3 Tool.
